WORK EXPERIENCE

Topauto 1653

2024/8 - Present

Position: Web developer

During my work as a Web Developer, I gained valuable experience in developing and maintaining web front-end , API and web deployment to server.

- **Web Front-End Development:** Designed and maintained responsive web interfaces with a beautiful and intuitive UI to enhance user experience. Utilized Angular and Tailwind CSS to build modern, efficient web applications.
- **API Development:** Develop and continue maintain API using Node js and Express js technologies to help front-end easily deal with business logic.
- **Deployment:** Deploy front-end and API to Digital Ocean cloud service for keep production always up to date.

School projects and Personal projects

To improve my skills and gain more experience, I have developed some mobile apps using the Flutter UI kit and responsive websites that support all screen devices using React, TypeScript, and Tailwind CSS, designed to deliver a seamless user experience across all devices.
